

# MAKE IT STICK

5 Simple Ways You Can Make This Lesson Stick With your Kids

## Hands-On Faith Lesson 3

### THIS WEEK'S LESSON: FAITH CAN GIVE US STRENGTH

#### IN THE CAR:

Ask your child what they learned about this week:  
Peter's faith allowed him to do the impossible and walk on water. When we trust God, he can help us do things we didn't think we could do. Matthew 14:22-36, Jesus Walks on Water

#### HANGING OUT:

Make this week's lesson real:  
Do this week's experiment at home with the kids, then ask them what this experiment has to do with what we learned about faith and focusing on Christ.

#### AT DINNER:

Here are some great discussion starters:

- What enabled Peter to walk on water, and why did he then start to sink?
- Can God do impossible things through Christians today?
- What is one thing you are doing to stay focused on Jesus this week?

#### AT BEDTIME:

Quiz your child on this week's memory verse:  
*"Now faith is being sure of what we hope for and certain of what we do not see."*  
*Hebrews 11:1 (NIV)*

#### PARENT TIME:

What you need to know:  
The storms of life can be a big distraction and cause us to lose faith. Pray that God will help your family stay focused on Him so that He can do miraculous things through all of you.

# HANDS-ON FAITH

## CRAFT ACTIVITY

Try The Magical Jumping Coin Experiment! It's simple and fun.

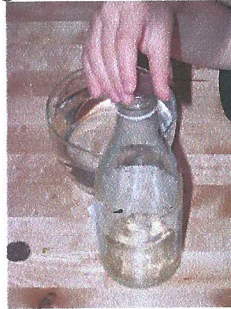

**Items needed:**

Glass bottle

Coin that covers top of bottle

**Directions:**

First chill a glass bottle and a coin by placing them in cold water.

Place the coin on top of the bottle.

Wrap your hands around the bottle and wait.

The coin will jump up off the bottle! The reason is that the warm air created with your hands pushes upward with more strength than cold air, making the coin jump!

**What does it mean?**

Peter was able to walk on water when he kept his eyes on Jesus. When we have faith in Jesus, he will enable us to do amazing things as well.
